Foreword

As the brooks of the forests reflected the images of the Indians of past days, so may this issue of "The Mirror" reflect the activities of the students of the Itawamba Junior College and Agricultural High School.

President's Message

I am very proud of the progress that has been made during the past school year. The excellent spirit of cooperation, teamwork and systematic planning by everyone has made this progress possible. Each student, teacher, and employee has made a definite contribution by loyal support. The school year of 1949-50 has been a most successful one. I feel that Itawamba Junior College and Agricultural High School is one of the fastest growing institutions in our state.

Philip A. Sheffield

Philip A. Sheffield, President

I wish to congratulate the annual staff and its sponsor for their excellent work in publishing the 1949-50 Mirror.

The students of Itawamba Junior College and Agricultural High School have been very cooperative in the building of an institution of service to the people of this territory. The faculty of our school appreciates this cooperation to the greatest extent. We hope that the progress of this institution will keep step with the progress being made by its supporting counties, Itawamba, Lee, and Monroe.

J. Crumbaugh

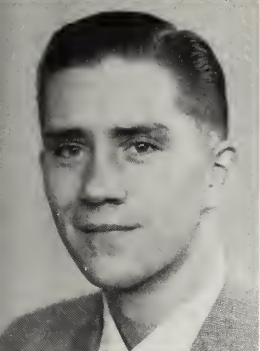

As principal of the High School Division of Itawamba Junior College, I wish to thank all the faculty and students, both college and high school, for their loyalty and support. The American public school should be non-partisan, non-sectarian, efficient, democratic, for all of the children of all the people. The purpose of education is to aid the individual in achieving a meaningful life, by providing him the opportunity to develop according to his ability. We are trying to do this through our program of study, social activities, athletics, clubs, assembly programs, band, music, testing, and placement program.

Figure it out for yourself, my lad,
You've all that the greatest of men have had;
Two arms, two hands, two legs, two eyes,
And a brain to use if you would be wise,
With this equipment they all began.
So start from the top and say, "I can."

Look them over, the wise and the great,
They take their food from a common plate,
And similar knives and forks they use,
With similar laces they tie their shoes,
The world considers them brave and smart,
But you've all they had when they made their start.

You can triumph and come to skill,
You can be great if you only will.
You're well equipped for the fight you choose;
You have arms and legs and a brain to use,
And the man who has risen great deeds to do
Began his life with no more than you.

YOU are the handicap you must face,
You are the one who must choose your place.
You must say where you want to go,
How much you will study the truth to know;
God has equipped you for life, but He
Lets you decide what you want to be.

Courage must come from the soul within
The man must furnish the will to win.
So figure it out for yourself, my lad,
You were born with all the great have had,
With your equipment they all began,
Get hold of yourself and say: "I can."
